### FINANCIAL AND COMMERCIAL.

TURSDAY, May 4-6 P. M. The activity in money was more noticeable to-day. d as high as gold interest was paid upon call ans, but the great majority of transactions took ace at seven per cent currency. The cliques are sed to be aggravating the actual demand for ney, which occurs during the week, about the lst of May, in the settlement of mortgages and the outraction of other real estate engagements, In bie bank statement of the 26th of April, and the sage of statement day, they not only unloaded long" stock, but went "short" of a vast mount more. The "street" is always weak as the cliques, for the disorganized ultitude are more susceptible of a panic. The diques have also been instrumental in causing the a gold, for simultaneous with their "bear" opera one in stocks they have been "bulls" in gold, the relations of the two markets enabling them to con-sistently carry on their diverse operations. Anfor carrying gold, which to-day ranged up to ten per cent, and induced many to withdraw funds Commercial paper was quoted at from seven and a half to nine per cent. The failure of a promi-nent dry goods jobbing firm was followed by rumors of several similar failures that were without founds

lining to purchase at the present price of gold, the we not being as yet accustomed to the changed igure. The supply of bills has been better and frawers not so stiff in their demands. Thus the ask-ng rate for prime bankers' sixty day sterling was 54, but large amounts were purchasable at a accession of an eighth per cent, while sales out of scond hands were reported as low as 109. The ourse of the market is very doubtful. One large auking house is said to have shipped a million of

vernment bonds to-day. Governments were dull and a fraction weaker. more curious as the foreign quotation came as This decline abroad brings the two markets at to an equality and leaves little or no margin r shipment save what may arise from the firmnes se domestic bonds, which shows that the market nced by the dearer rates for money. Govrnments are quite sensitive to the changes of the with surprising promptitude. As to the for-eign quotation, there has been a wide difference between the telegrams given to the public and those received privately. The price at Frank-fort has been quoted at 86, when positive informa-tion exists that it was about a half to three-quarters er cent higher. This carelessness or trickery be as been often the subject of complaint among the ers to the cable reports. The decline in d here this afternoon caused a better feeling in ad the price advanced a quarter per cent over the lowest figure of the day, which operated beneficially at the close and induced a firm tone to ing street quotations, which were as follows:-119; do., coupon, 119 a 1191; five-twenties, regis-113¼ a 113¼; do. do., coupons, 1862, 118½ a 118%; do. do., coupon, 1864, 114 a 114%; do. do., 1, 1865, 115% a 115%; do. do., coupon, new, 35, 116% a 116%; do. do., coupon, 1867, 116% a 3%; do. do., coupon, 1868, 116% a 116%; do., tenorties, registered. 107% a 107%; do. do., coupon,

thern securities were lower for the Alabama and firmer for the Louisiana eights. New orth Carolinas were steady. Old Tennessees were nsitive to the increased demand for money and d "off," but closed steady. The following were ees, ex coupon, 67¼ a 67½; do., new, 65¾ a 66; mias, ex coupon, 57 a 58; do., new, 62 a 62½; gia sixes, 82 bid; do. sevens, 951/2 a 961/4; North ouri sixes, 88% a 88%; do., Hannibal and St. evee do., 69% a 70; do. do., eights, 90 a 90%; Ala-

stock cliques who bought gold so heavily in appent stages or the recent advance were sucful in making a good market to sell upon to-day. surv in payment of the May coupons. Loans portion of the forenoon, but later as high as ed upon the currency collateral for carrying bal-

 The steamer Germania, for Hamburg, took \$96,000

The annual meeting of the stockholders of the Bankers and Brokers' Association was held today, and the following gentlemen elected trus-tees for the ensuing year:-Messrs. R. W. Martin, Jr.: H. M. Benedici, T. B. Musgrave, James D. Smith, T. B. Stout, A. M. Ferris, J. L. Brownell, G. T. Bonner, L. J. Van Boskerck, T. H. Marvin, T. S. Marior, J. B. Colgate, John Bonner. At a subse-quent meeting of the trustees Mr. John Bonner was ananimously elected President; Mr. H. M. Benedict, Vice President; Mr. A. M. Ferris, Treasurer, and Mr. T. B. Stout, Secretary. A dividend of four per cent

was declared, payable on the 15th inst.

The stock market was excited over a pressure from the "bear" side of the street, and fluctuations were wide and frequent, the market yielding after were wide and frequent, the market yielding after considerable resistance. New York Central was forced down to 1754, and sympathetically Hudson River and Hariem declined several per cent. For the Wayne gave way to 141 and Rock Island dropped to 1845. The attack was also directed against Michigan Southern and Lake Shore, which yielded about one per cent. Pacific Mail, which stoutly held out in the forenoon, was overcome in the afternoon and fell to 91%. Pittaburg and the Northwestern shares were quite heavy, the decline in the latter being assisted by the unfavorable report of the earnings during the past month. Illinois Central was firm, in sympathy with the steadiness of the London quotation. A similar cause kept Erie strong to-day in the vicinity of 2815 to 285. The bill to continue four-fifths of the present directors in office beyond the next election has passed the Assembly on reconsideration of the vote by which it was previously lost. In the project for a through route from New York to Chicago the Erie road is at one end and the Fort Waynea the other. If the bill referred to reaches final passage then the directors at one end and the Fort Waynea through route are continued in office for a period extending from three to five years. Fort Wayne cannot get possession of Erie, nor can Erie obtain control of Port Wayne. It was rannored on the after to-day that the Senate will pass the Central Scrip bill and the Railway Consolidation bill to morrow, which fact may also account for the anxiety of the cliques to depress the market was a preliminary to buying for the expected favorable irregularity, but the goneral features were duliness and heaviness. Fort Wayne cannot con the after to-day that the Senate will pass the Central Scrip bill and the Railway Consolidation bill to morrow, which fact may also account for the anxiety of the cliques to depress the market was a preliminary to buying for the expected favorable irregularity, but the goneral features were dulines and heaviness. Fort Wayne can be also as a fin considerable resistance. New York Central was forced down to 175¼, and sympathetically Hudson

## REAL ESTATE MATTERS.

The Riening Telegram of yesterday published the following under the caption of "The Truth about

This agrees exactly with our observation of the

simply duil for city property, but that dulness is sign of a "break" in the market than the recent adtional credit. There may be delay in realizing the full appreciation anticipated a couple of months ago, yet holders evince no fear renewed activity in the fall, have, in most cases, raised their expectations the higher for the post excitement in the market deprecated the disposi-tion to discount the future, and have feit it our duty more than once to warn dealers of the danger of a reaction. We think these warnings in, company with the sober second thought they awakened, by curbing the reclaiessness of speculation upon which the market was just entering, have been the means of our escaping this danger, but we never considered, even with the prospect of that possible interlude, that speculation in real estate in New York and vicinity upon a sound basis, with a proper mar-gin, was anything but the very safest of operations. In this connection the remarks of a contemporary yesterday are apropose.—"The in less than thirty years the whole island will be one vast mass of brick and mortar, maintaining an uninterrupted continuity from the Battery to Hariem river. No one certainly would like to hold for a rise for any great length of time; but the country seats at Washington Heights, with a value now of \$3,000 to \$5,000 an acre, must in a decade give way to cottages with ample surroundings, which in their turn are swept way to make room for blocks of stately mansions, which in turn are transferred into noble, imposing warehouses. Our inseresse has been natural. Our commerce flows in well defined channels, incapable of being arrested from this city, the only really commodulus scaport on the Atlantic coast. Then, again, if we take the history of the past to enable us to judge of the future, we find, since the city's foun-inton, that the
